To add a system user, go to Admin - User Management- Users and click the “Add” button.

Once all fields are added click “Save”

*To create user logins an employee list needs to be created first under the “PIM” Module

To create a user login the following needs to be entered:

- User Role: You can assign user roles for each user whether they would fall under as an “Admin” or “ESS” user type to define their user rights.
- Admin: have access full access to the system.
- ESS: limited access to the system. It could be an ESS-Supervisor or ESS-Employee. 1. ESS-Supervisor: where the user has access to his/her particulars and his/her subordinates’ particulars. 2. ESS-Employee: where the user has access only to his/her particulars.
- Employee Name *If an HR Admin is an existing employee, he/she needs to be defined in the PIM Module
- Username
- Status – Enabled or disabled
- Password
- Confirm Password (Re-enter the password)

Once an entry is added a list of user logins as shown will appear
