Agile	
Epic Name:	New Recruitment and performance module

Description

Recruitment and Performance Modules were released

The Recruitment Module manages the recruitment process of a company.

The admin can create Vacancies which will be listed on the link via jobs.php. A link has to be made on the website to take the applicant to jobs.php. When applicants are rejected, approved or when interviews are scheduled, mails are sent to them. Successful applicants are added to the system.

The Recruitment Module contains a Candidate section and a Vacancy section, where the admin can search, add candidates, and create vacancies.

The Performance Module manages and reviews the performance of all employees so that a company can understand how well an employee is performing in relation to their strategic goals and objectives.

The Performance module will contain this sections :

- Configure section where admin can add and search Key Performance Indicators for Job Title and track their performance
- Manage Reviews section
- My Trackers
- Employee Trackers

For a user to be able to log in as an Admin keep in mind that you will have to use the following link:

https://opensource-demo.orangehrmlive.com/ with the following credentials:

Username: Admin

Password: admin123
